REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

While it is known in the art to provide an fuel filter assembly with an inlet and outlet and in embedded heater or attached heater located in the annular space between the housing and the filter, and a water drain (see EP 1250720 to REHAU), and it is known to provide a thin-film heater to a fuel filter assembly (see Pasbrig of record), and it is known to provide a pump in the housing, in the examiner's opinion, the prior art fails to teach or fairly suggest combining the elements known in the prior art to arrive at the instant invention. The instant invention provides the benefit of efficient, quick heating of fuel in the housing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
